flood of light soundtrack

The first time I played Flood of Light I just listened to the soundtrack for like 2 hours. Who needs the game when the music is that good. I mean this is the most relaxing album I ever heard. Each unique track is very atmospheric and immersive. I wish I could nominate it for the best OST in 2017 but nobody played this wonderful game. There are 12 entries in the album but only about 9 are unique (not counting rain sound effect) \$1 on sale for 9 catchy songs seems like a good deal to me. I rarely bother to pay for music in games but this one deserves it.. The first time I played Flood of Light I just listened to the soundtrack for like 2
